

Design a festive feast

Your Group can help Father Christmas by creating a stunning seasonal spread

Suitable for **Beavers and Cubs**

In this activity, Santa is planning his trip around the world this December, but this year he also wants to collect food for his Christmas dinner from all of his international friends on the way.

To help him remember everything he needs to collect on his travels, he would like your Group to help him create a shopping list so he knows where he needs to stop and for what. Be sure to include food from lots of different countries. Your Group can also help Santa find his foodie treats by telling him how they are grown so he knows where to look.

What to do

- 1** Hand out the Farm to Fork Foods From Around The World PDF, which can be found on scouts.org.uk/eathappyproject. On the PDF are examples of where different types of food can come from and how they are grown.
- 2** Ask your Group to pick 6–8 types of food from a range of countries on the list, ensuring they

have a good spread from around the world.

- 3** Get them to write their list and draw each type of food they have chosen, making sure they leave enough space to tell Santa where they are grown and how, for example, oranges are grown on trees and are often found in California and Florida.

Farm to Fork

Part of the
TESCO
Eat Happier Project

You will need

- Paper
- Colouring pens, pencils and craft materials
- The PDF of Foods From Around The World from scouts.org.uk/eathappyproject
